

Please amend the chemical name provided on page 73, line 18, to provide the following:

C2 N-[3-(4-bromo-2-methylpyrazol-3-yl)phenyl][(4-chlorophenyl)amino]-carboxamine

In the Sequence Listing:

Please replace the Sequence Listing with that attached hereto as Appendix B.

In the Claims:

Please cancel claim 1 without prejudice.

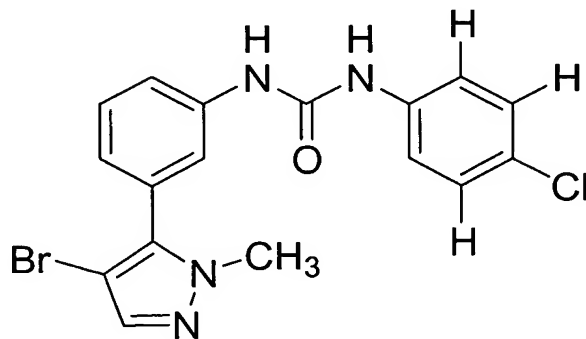

Please add the following new claims 14-16:

NE see and a

14. (New) A serotonin receptor modulator having an ^1H NMR ($\text{MeOH } d_4$) spectrum with the following features (δ ppm): 3.81 (3H, s), 7.07 (1H, m), 7.23 (2H, m), and 7.36-7.60 (6H, m).

15. (New) A serotonin receptor modulator having a mass spectrum with the following features (m/z (%)): 409 (19), 407 (100), and 405 (81).

16. (New) A serotonin receptor modulator having the following structure:
